Re: CAASPP Scores

The purpose of this memorandum is to provide the Board of Trustees CAASPP scores comparative data for Sweetwater District, other districts in San Diego County and the State of California.

Each principal in the district received their specific data on September 9, 2014, in an interactive format developed by Research and Evaluation. At this time, we are proceeding with caution in terms of comparing our data and California statewide data to the national data. A deeper analysis of our data will be provided in an upcoming update.
